Link to join the webinar will be shared on the Whatsapp number / e-mail address given by you in the registration form.

Provide complete details as asked in the registration form. The last date for registration is 4th June, 2020 till 5.00 PM. Please write correct and complete information in registration form as the same data would be used to send your certificate. It is mandatory to mention your contact number and e-mail address in the registration form.

: ABOUT CHILDREN'S UNIVERSITY :

Children's University is one of the dream projects of Hon. Prime Minister Shree Narendra Modi for the holistic development of each child. University came into existence by Children's University Act, 2009 at Gandhinagar, Gujarat. It is the only university of its kind around the world. Shri Harshad P. Shah shouldered the leadership as the first Vice Chancellor of the University in January 2012. Focus of the university is 'Every Child Matters' and the up bringing of our children should be done in such a way that avails the development of physical, mental, intellectual, emotional and spiritual facets which ultimately lead them to self-realization.

The scope of this university begins with "GarbhaSamskar" to the incarnation of best progeny and hatches the dream of preparing a holistic human being for the society. University also comprises not only development of child but also of Parents. It trains teachers, teacher educators, counsellors and parents to take care of holistic and continuous development.

To realize this dream, this university encompasses four core dimensions including education, research, training and extension in true sense. The functions of the university are distributed in very wide spectrum of disciplines which includes Education, Philosophy, Sociology, Psychology, Languages, Social Work, Technology, Food and Nutrition, Yoga, Music, Sports etc.

: ABOUT WEBINAR :

It is well said that the home is the first school and school is the second home for each child. Home is the place where a child starts learning and the school helps the child to learn how to learn. Today, in the pandemic condition we all are facing the unforeseen challenge of COVID-19. We are in lockdown situation for a long time and not sure how long it will last. In this situation it is not advisable to open the schools and the educational institutions hurriedly. As the second homes (schools) of the children are closed now, once again the role of the homes (first schools) become crucial and so do the role of the first teachers viz. 'the parents'. In the busy world of the 21st century, the parents and children mostly have less quality time to live and learn together. This pandemic has given us the opportunity to learn together with our children. This is the time to explore more of our children's potential and inner abilities. For parents, this is also the time to become an ideal teacher to the children. This is the time to visualize the possibility in each child and to hold the child's hand as a parent – teacher. Hence, Children's University has taken initiative to organize this webinar on 'Each Child: A Possibility, Each Parent: A Teacher'. The inputs of this webinar will help to develop an insight of the parents to put themselves in the role of the teachers of their children and to help the children to do their best with their natural abilities.
