## :: About University ::

The Conception of the Children's University was first revealed by the then Honorable chief Minister of Gujarat and present Hon. Prime Minister Shri Narendrabhai Modi, while emphasizing this he explained the urgent need of the University that may specifically be made for the growth and development of the coming generations. Apart from this, as He pointed out, the prime focus of this institution would be to avail the path-breaking researches dealing with the children's studies. The prime aim is holistic development of child based on Indian thinking and spirituality which covers whole life span of human that is conception to adulthood (-9 months to 18 years) which make this university very unique, novel and path breaking from all other conventional universities. This is very proud feeling matter for the government of Gujarat to work in the area of child development in very different way.

## :: About Department ::

The Department of Psychology established in 2016 is one of the best Department of Children's University offers M.Phil. in psychology, M.A in Child Psychology and PhD in psychology. The origin of the Department of Psychology was one of the significant contributions by Prof K. S. Likhiya The former Vice—Chancellor of Children's University. Dr. Ashok Prajapati was the first Professor in charge of the Department and He worked successfully to initiate these three courses. At present, the Department is headed by Prof. B. D. Dhila who has joined the department as professor in 2020.

## :: About Seminar ::

This Seminar will discuss relevant topics under the broad theme of "Psychological well being during Covid-19: Crisis and Remedies". In contemporary scenario, all of us are experiencing emotions, thoughts and situations we have never experienced before, the pandemic of COVID-19 is on a completely different scale. In India, the first and foremost response to the pandemic has been fear and a sense of clear and imminent danger to one's life. The range of fear runs from factual fear to illusory unknown fear based on information / misinformation circulating in the media, particularly social media. As the society stands at the crossroads pandemic prevention and control, the discourses in Psychological Wellbeing also needs to be looked at critically. The main aim of the seminar is to talk about Psychological well being during Covid-19: Crisis and Remedies with the contributor's support. Leading academicians, mental/public health professionals, mental health care specialists, health care workers, researchers, Psychologists and many more Seminar participants are expected to gain relevant knowledge and a better understanding of various factors of Psychological well being domains. This seminar will bring together experts from various fields for a common cause at a platform where delegates will be enlightened by the experts about the area of growing concern and their possible solutions. It is also an opportunity to alert people working in the concerned area about its relevance and importance. This seminar will also create awareness about the importance of basic scientific research in different fields matching with the given theme. The scope of the seminar includes all major areas of Psychology and Social Sciences.
