Dear Sir/Madam

We feel honor in inviting you to Two-days National Seminar to be held on November, 22nd and 23rd, 2019 on "Early Childhood Care and Development". Grace the occasion by your scholarly presence.

EARLY CHILDHOOD CARE AND DEVELOPMENT

The last few decades mark with a sea-change in the larger perception of child-centric trends in academics. Earlier, the academic world used to undermine this area by relegating its significance to the level of only periodic guidance. However, new researches in the realm of child psychology, developmental psychology, neuro science and so on have opened the eyes of post-modern scholars to pay a close attention to the field of Early Childhood Care. In this regard, Bharat has a long tradition of valuing the early years of a child's life, and a rich heritage of cultural practices for stimulating development and inculcating value system and social skills in children.

The Hon'ble Prime Minister Shree Narendra Modi explained that children of today are put under the turmoil of unnecessary pressure and that this situation needs to be remedied. He further added that the modern world is moving rapidly towards the formation of nuclear families, and children begin to become marginalized in terms of care and protection to which they have a natural right. In this context, the Hon'ble P.M. said, the Children's University, as he visualized it should come forward to ensure all the needed help and care, not only in terms of physical health but also in terms of psychological needs, so that the children of today and tomorrow grow up under warm and affectionate care extended to them by the entire society into holistic personalities capable of serving the country and humanity to the best of their abilities.

Children's University as the first of its kind is committed to the aim of holistic development of every child. The University operates aiming at the areas of researches pertaining to toys and their design, various methods of teaching/learning, and inculcation of virtues according to Bharatiya culture. To develop a holistic personality of our future generation based on 'Panchkosh Siddhant' as mentioned in Taittiriya Upanishada is the ultimate goal of Children's University.

FREE PAPER PUBLICATION

Selected Papers will be published in Edited Books with ISBN Number & in Children's University Journal - "Horizons of Holistic Education (HHE)"

THEME OF SEMINAR EARLY CHILDHOOD CARE AND DEVELOPMENT

SUB THEMES

- Child Development and Psychology

About Children's University

The Conception of the Children's University was first revealed by the then Honorable chief Minister of Gujarat and present Hon. Prime Minister Shri Narendrabhai Modi, while emphasizing this he explained the urgent need of the University that may specifically be made for the growth and development of the coming generations. Apart from this, as He pointed out, the prime focus of this institution would be to avail the path-breaking researches dealing with the children's studies. The prime aim is holistic development of child based on Indian thinking and spirituality which covers whole life span of human that is conception to adulthood (-9 months to 18 years) which make this university very unique, novel and path breaking from all other conventional universities. This is very proud feeling matter for the government of Gujarat to work in the area of child development in very different way.

About Seminar

The future world of learning is one where the forces of globalization, pervasive technology and innovation demands in the learning environment combine to form a dynamic setting that is both challenging and difficult for educational leaders. Together with the changes, new expectations have knocked on our doors. The first aim of our education was Holistic Development of a child, Father of nation, Mahatma Gandhi once said "By education I mean all round drawing out of the best in child and body, mind and spirit". It is quite apparent that all round development is like a day dream, because the current system is not developing all round ability in the child. All the issues and challenges did not rise in a dully, they took a long period. If we look back in ancient time, India was on the top in education and knowledge. This was the country in which students used to come from all over the world to acquire the knowledge and education. No country of the world was even near to it. In 21st century, we live in an interconnected world where globalization, Information Communication Technology (ICT) and knowledge explosion have shrunk the world into a global village. Education, ICT, innovation and science technology are the main pillars of knowledge society. Technology is shaking the world. With all these expansion, we are now entering in new Era of Information and Technology after Covid-19.

Sub: Invitation to Mr. Harshul Brahmabhatt, HoD, Dept. of Toy Innovation for an expert session
-reg.
Ref: F.120339/2023/KVS/RO/AHMD/ACAD

Sir,

With reference to the subject cited above, it is to state that, a **three day workshop on "Foundational Numeracy & Tracking the progress of Child in FLN"** for the Primary teachers of different KVs of Gujarat under the aegis of Kendriya Vidyalaya Sangathan, Regional Office, Ahmedabad is going to be conducted at this Vidyalaya w.e.f. 26/06/2023 to 28/06/2023.

In this connection, it is further submitted that, we wish to invite Mr. Harshul Brahmabhatt, HoD, Dept. of Toy Innovation, at your esteemed university for a two-hour expert session on 27/06/2023 Time 9.30 AM to 11.30 AM.

The Guest Speaker would be paid Honorarium as per KVS norms.

You are requested to accord your kind approval for the same and oblige.

Thanking You,

Yours Faithfully,

(M C SATYAWALI)
