- ◆ Yoga
- ◆ Day-to-day Behavior
- ◆ Music
- ◆ Drama
- ◆ Chanting of Divine Verses
- ◆ Decoration
- ◆ Experiment

(Education of Life: A Live Education)

Two Centers of a Child's Consciousness (1) Home (2) School

How much fun it would be if the home sounds as a school and a school becomes home! Children's University means the university for children. Mission: a holistic development of a child. A holistic development means a five-layered development based on Panchakosha. It also means a development of body, vital force, mind, intellect and soul.

We want a child to be virtuous, we want a child to be the best human being. We have a direction and vision to achieve this goal.

Do you wish your child to be a magnificent one ?

Do you wish that...

- ⇒ **Bharat gets great scientist and mathematicians ?**
- ⇒ **The nation should get excellent mentor ?**
- ⇒ **Your family be blessed with such an exquisite successor ?**
- ⇒ **Sedate, stalwart, sage like human being should be born on this planet ?**

The place to produce such bright probability means...

Shishuniketan
The real pre-school

(A child is a constantly developing soul.)

A child takes birth with inordinate possibilities and uniqueness. An education means to understand the abilities of a child and to facilitate one's child suitable environment to discover those latent potentialities. A human being receives an extraordinary capacity for the self-development from the burning desire of expanding one's set boundaries. This struggle for achieving the perfection leads a child in the direction of holistic growth. Seemingly trivial matters direct one towards the perfection and perfection is not a trivial matter. It is high time to teach such life-oriented matters to children.

If you want to give such valuable teaching to your child, then do get one admitted into the Shishuniketan of Children's University.

From this year, Shishu-1 and Shishu-2 has been commenced and gradually, from next year onwards (i.e. From 2022) Balavatika along with a full-fledged school will begin.

Children's University wants to bring an academic revolution by building a unique school. To achieve this goal, do hand over your child to us with complete faith and confidence.

-Mr. Harshad P. Shah

Vice-Chancellor (I/c)
